

# Ebola Update: August 26, 2014

Healix is closely monitoring the current outbreak of Ebola in West Africa, and will be sending regular updates and advice to our clients as the outbreak continues.

## Update:

- Upon arriving at Delhi airport from Liberia this morning, six passengers were immediately isolated and taken for Ebola tests. Both Mumbai and Delhi airports are equipped with thermal scanners to detect fever in passengers.
- Liberian doctor Abraham Borbor, who was given the experimental drug ZMapp, has died. The deputy chief medical doctor at Liberia's largest hospital was treated with the same drug as two infected American patients, both of whom survived.
- To date, more than 240 health workers have been infected with the Ebola virus in Guinea, Liberia, Nigeria, and Sierra Leone, killing more than 120.

## Clinics and Facilities Status in Affected Areas

Healix is in direct communication with those medical facilities that are still operating in the impacted regions. Please contact Healix directly for further information on the readiness of medical facilities in these areas.

## Country Travel Advice Status

Sierra Leone: Warning Level 3 - Healix Recommend "Avoid Non-Essential Travel"  
Guinea: Warning Level 3 - Healix Recommend "Avoid Non-Essential Travel"  
Liberia: Warning Level 3 - Healix Recommend "Avoid Non-Essential Travel"  
Nigeria: Alert Level 2 - Healix Recommend "Practice Enhanced Precautions"

## Other African Nations Unaffected by Ebola

Healix recommend that travelers take usual precautions with vaccinations and travel arrangements but should be familiar with ["Ebola Precautions if Traveling to Africa."](#)

- Ebola Infection Table by Country (Updated as of 22 August):
