

Ebola Update: 18 November 2014

- The government of the Democratic Republic of the Congo (DRC) has declared their Ebola outbreak is over. The outbreak, unrelated to the Ebola outbreak in West Africa, claimed a total of 49 lives. The last confirmed case was on October 4th and the 42-day period (twice the 21-day incubation period of the virus) with no new cases has been met. Treatment teams still remain but have begun to withdraw.
- Dr. Martin Salia died on Monday at the Nebraska Medical Center in the United States. He contracted Ebola while treating patients in Sierra Leone. Dr. Salia was already in critical condition when he arrived in the United States on Saturday. He was treated with blood serum from a surviving Ebola patient and received a rare dose of the experimental treatment ZMapp.

Clinics and Facilities Status in Affected Areas

Healix is in direct communication with those medical facilities that are still operating in the impacted regions. Please contact Healix directly for further information on the readiness of medical facilities in these areas.
